

CBC Dixon, NM (NMDI)		Compilation of 98th - 113th Counts																(1997 - 2012)	
All records for Dixon CBC ordered by each species' percentage of all individuals counted over the 16 years of the count.																			
Averages calculated dropping the lowest and highest counts for each species. (This leaves all species observed in just one year with a percentage of zero.) (The probability of seeing these species on another count is very low.)
